

# Trevose Class Homework Grid:

## *What if dragons existed?*

During the summer term in TREVOSE CLASS, we are going to embark upon an amazing adventure; we are going to learn all about castles and dragons! In order to begin our exciting term, your challenge is to choose one (or more) of the tasks below to complete during the Easter holiday. For evidence, you could bring in something as simple as a few photographs or a brief video, or you could be adventurous and create a model or a full folder of your work. High Expectations!

### Maths

Design or make your own dragon using different 2D and 3D shapes. Remember to include colourful patterns and a description of your dragon.

### English

Write a diary entry for 'A day in the life of a dragon'. What would they do for fun? What difficulties would they have in modern Cornwall? Deliver it in class!

### Geography

Are there any other castles around the world? Perhaps you could print/draw the castles you find. How do they differ from castles in England?

### History

What is a coat of arms? Could you create your own? Make sure it is personal to you. What makes it so special?

### Design Technology

Design and make your own papier maché dragon egg.

### Computing

Research a castle in Cornwall and create a PowerPoint presentation about it. You could present it in class!

### Art

Draw or paint your own dragon. Label features on your mythical creature.

### Physical Education

Design a fitness regime for a knight before trying to defeat a dragon. Call it 'Knight workout' – be prepared to share it in P.E.

### Music

Create your own musical sound to represent a joust.

### Religious Education

What different religions were there in Medieval England? Make a mind map of your findings.

### Other

Have you got a better idea for a fun task? Do it! Bring your evidence into school.
