An internet we trust
Exploring reliability in the online world

Safer Internet Day 2021 | **UK Safer Internet Centre**

Remote Learning for Safer Internet Day
### Ages 7-11

This Safer Internet Day we want to support all settings and young people in exploring the theme, **'An internet we trust: exploring reliability in the online world.'**

With many young people now learning remotely, this document provides an overview of some of the resources provided by the UK Safer Internet Centre and their partners that mean all young people can join in the celebrations, wherever they are.

Education Pack for Ages 7-11

This pack includes an assembly, lesson plan and activity menu designed for delivery with 7-11 year olds. They come with slides to support with adaptation for remote learning. The pack also includes a document with social media and campaign activities. Educators are invited to pick and mix from the activities in the education pack and adapt for their learners.

Depending on your setting's approach, you may wish to consider the following suggestions:

I want to do a live video session with my learners

Use the **Assembly Slides** and **Script** to introduce Safer Internet Day and this year's theme. The assembly is easily adaptable and can be delivered by screensharing.

If learners can interact directly via video, try *Two Truths and a Lie* from the **Activity Menu**. This is a great game which can keep your learners connected when they can't meet in person, whilst allowing you to introduce some of the key messages around this year's theme.

An internet we trust
Exploring reliability in the online world

I want to make a recording and set follow-up activities

Adapt the **Lesson Plan** and **Lesson Slides** for remote learning by focussing on *Activity 1, 2 and 3*. Before they watch your recording, you could get learners to note down what they think an advert is and all the different places they might've seen them.

Then share the video on *Slide 7* and pre-record teaching input using *Slides 8-19* (a screensharing video would work best). Afterwards, give learners a copy of *Slides 20-23* to complete independently by printing, or online with textboxes/annotations.

I want to set learners an activity they can do on their own

Share the scenarios for *Feelings* from the **Activity Menu**. Ask learners to pick one and imagine they're a friend of this person. Ask them to write a response giving their friend some advice – this could be in an email format.

Try *Have Your Say* in the **Activity Menu**. This activity involves sharing key questions on the theme of trust online and could be done in a shared document or using other collaborative online spaces like Padlet or Mentimeter. Ask learners to answer the questions and, if possible, respond to each other's answers.

I need to print content for learners with limited internet access

Share the black and white copy of the social media template from the **Campaign and Social Media Activities** document. Learners can decorate and colour the page, and fill the magnifying glass symbol with words, illustrations or a pledge linked to this year's theme.

Other ways to get involved

Parents and Carers Pack
saferinternet.org.uk/SID-parents

Why not share the Safer Internet Day resources pack for parents and carers? It includes activities, conversation starters and information to help parents and carers talk to their children about how to navigate the issue of reliability of information online in a safe, responsible and engaging way.

Pre-recorded Assembly
saferinternet.org.uk/2021/7-11

In the run-up to the 9th February, the UK Safer Internet Centre will release a pre-recorded video "assembly" delivered by one of our education team, specifically for learners aged 7-11 years old. The video will be approximately 20 minutes long and can be shared directly with learners as a quick and easy way to engage with the event.

Other ways to get involved

Safer Internet Day Online Quiz
saferinternetday.org.uk/quiz

Engage learners with our free interactive quiz on this year's theme of reliability online. The quiz has been written for 8-13 year olds but can be played by anyone. We have also provided it as a printable PDF for learners with limited internet access.

Safer Internet Day Films
saferinternet.org.uk/films

Share the Safer Internet Day film for 7-11 year olds for learners (and their families) to watch at home. You could use the prompt questions from the *Notes for Educators* to create a quick worksheet for them to complete after viewing the film, or to start a live discussion.

Guinness World Record in partnership with 2Simple
saferinternet.org.uk/register

The UK Safer Internet Centre and educational software company 2Simple are seeking the help of children and schools across the country to help break an official GUINNESS WORLD RECORDS® title for Safer Internet Day for *Most shares of an online pledge for an internet safety campaign in 24 hours*. When your school signs up as a supporter for Safer Internet Day we will update you with how to join the world record attempt – it's open to all learners in all schools to participate remotely or while in school.

BBC Video Lessons
bbc.com/ownit
bbc.co.uk/teach/live-lessons/safer-internet-day-live-lesson/zdh2wnb

We are working in partnership with the BBC to support educators, young people and parents and carers to take part in Safer Internet Day at home and school. BBC Teach will be launching a new BBC Live Lesson for Safer Internet Day, and you can check out BBC Own it for lots of new Safer Internet Day content.

Resources in partnership with Twinkl and Natterhub
natterhub.com

Natterhub, powered by TwinklHive, is enabling primary schools to access Safer Internet Day resources in Natterhub's fun, safe, online environment. Post activities to the news feed, interact with the whiteboard function, dress your avatar in Safer Internet Day accessories-these are just a few of the things Natterhub has in store for schools around the world!

Virtual Event in partnership with Liverpool FC (1.30pm-2.30pm on 9th Feb)
Available on **youtube.com/UKSIC**

On Safer Internet Day, we are working in partnership with Liverpool FC to stream an exciting live event for young people aged 9-11. This will include exclusive content from Liverpool Football Club – virtual tours, footage from players and the community, as well as Mighty Red – in addition to lots about Safer Internet Day and this year's theme.
