### **Our Special Educational Needs and Disability Information Report and Offer (SEND)**

Grampound Road Primary School is a vibrant, happy and exciting primary school which aims to develop each individual in a caring, family atmosphere. The children, staff and parents are extremely proud of our school and we aim to be inclusive of all children whatever needs they may have. The facilities we have and the education we provide are tailored to meet individual needs both inside and outside of the classroom environment using the THRIVE approach. Staff at Grampound Road Primary School are trained to cater for the needs of the children in their care and many staff have had additional training specific to individual children. We are committed to narrowing the gap between SEND and non-SEND pupils. We do this through a variety of different provisions which may include short-term specific interventions, 1:1 sessions, home-school interventions, other learning interventions developed on an individual need basis as well as support from external agencies where appropriate. Every child at Grampound Road Primary School has the opportunity to follow all subjects in the Primary Curriculum and / or access all areas of learning in the Early Years Foundation Stage, the planning and delivery of which is differentiated by our talented team of teachers and their assistants.

## 12. Pupil progress

Pupil's progress and attainment is an ongoing process of teaching, learning, consolidating and applying. This is by the class teacher and support staff. The special needs coordinator and curriculum coordinators monitor and review this on a half termly basis. The pupils are involved with self-assessments at the end of learning tasks and against learning outcomes in lessons. Considering personalised targets pupils, parents and staff are involved with reviewing the successes of these and setting new goals and targets including celebrations of their achievements and successes.

## 13. How we know how good our SEN provision is

At Grampound Road Primary School we are always monitoring and evaluating the quality of our SEN provision. We carry out an annual self-evaluation audit alongside the governor responsible for Special Educational Needs. We monitor our provision through governor monitoring visits, SENCO observations and learning walks and conversations with pupils. We then put in place a development plan to lead SEN forward. We also ask parents for feedback and comments during review meetings and through parental questionnaires. In terms of intervention and specific provision there is an entrance and exit assessment made to ensure the pupils are making progress from the provision. We make any appropriate adaptations as necessary.

## 14. If you wish to complain

If you feel that you have concerns about your child's SEN provision then we urge you to contact school in the first instance, speaking to either the class teacher/SENDCo (Rachel Moseley) /Head of School (Claire Gabriele). Concerns may then be escalated if necessary to the SEN governor Tracey George or to the Chair of Governors (Tracey George) or to the Board of Directors at Celtic Cross Education.

## Answers to Frequently asked Questions

### **1. How does your school know if children/young people need extra help?**

Our school has an 'open door' policy to parents and have extremely well-developed links with the parents of the children that attend Grampound Road Primary School. Children who may be vulnerable or those who are causing a concern to staff in terms of behaviour or academic progress, for example, are regularly monitored and assessed by staff. Children's progress and behaviour are monitored through termly tracking systems. If a child transfers to our school from another Primary school then we always do our utmost to find out as much information as possible about that child from both parents and the child's previous school. If there are external professionals involved with that child then their opinions and reports are sought after to ensure that we get the full picture of that child.

### **2. What should I do if I think my child may have special educational needs?**

If you think that your child may have a special educational need then talk to us. We are here to listen and to help. You should talk to your child's class teacher in the first instance and then after discussion they may set up a meeting with the Special Educational Needs and Disability Co-ordinator (SENDCo) and / or the Head Teacher. Following these meetings steps will be taken to address any concerns you may have about your child.

### **3. Who is responsible for the progress and success of my child in school?**

The progress and success of your child in school is everyone's responsibility. By 'everyone' we mean all school staff, parents as well as the child themselves. Half termly progress meetings with staff ensures progress is tracked and monitored appropriately. Where necessary, specific and targeted intervention support will be deployed. Each year a copy of the Home / School Agreement is sent home to be signed by both the parent and the child. This is then returned to school, signed by the class teacher. Although this is not a legally binding document, we expect all who sign the agreement to adhere to it in equal measures, to support the success and progress of each child.

### **4. How will the curriculum be matched to my child's needs and how will their needs be supported?**

At Grampound Road Primary School we are flexible and creative with our approach to the Early Years Foundation Stage Framework and Primary Curriculum and plan lessons to be accessible for all. In all classrooms there are three 'waves' of support: Wave 1 – support and resources available to everyone in that class; Wave 2 – support and resources available or tailored for small groups of children; and Wave 3 – support and resources specifically designed for or accessible by individual children. All lessons are differentiated appropriately according to the needs of the children in that class or group whether it be by the amount of support children will receive, resources they may use or the expectation the teacher has of those children when that lesson is finished. We are encouraging the children to be independent in selecting the level of challenge in learning from Getting Going, Ready to Rock and Jetter Setter. The children self-evaluate and peer evaluate their learning with feedback from the teachers. Children are sometimes withdrawn from the classroom in small groups or on a one to one basis for more intensive support from a teacher or teaching assistant, or to take part in an intervention program designed to meet and support the needs of that individual or group of children. Children may also be withdrawn by staff for physiotherapy sessions or individual speech therapy support.

#### **5. How will I know how my child is doing and how will you help me to support my child's learning?**

Grampound Road Primary School operates an effective 'open door' policy to create a constant positive dialogue with parents. In addition to this staff may ask to speak with parents at the end of the school day, parents are invited to attend Parent Consultations in both the Autumn and Summer terms, and in the Spring term annual reports are sent home to parents, after which parents may request an additional consultation with their child's class teacher if they wish. For pupils with additional needs there are termly meetings to review targets and set new aims. All of this constant dialogue between school and parents will help you to support your child's learning at home and inform you of how they are progressing in school. If at any time you wish to discuss your child then meetings can be arranged with class teacher and / or the Head of School at your request.

#### **6. What support will there be for my child's overall well-being?**

Your child's overall wellbeing will be constantly supported in school in a variety of ways. We will help them to be healthy by ensuring that they enjoy good physical and mental health as well as encouraging them to live a healthy lifestyle; we will keep them safe by protecting them from harm and neglect; we will help them to enjoy life and achieve well by giving them opportunities to make the most out of life and by beginning to teach them the skills they need for adulthood; we will help them to make a positive contribution to school, the community and society by being involved in the community and society and discouraging involvement with anti-social or offending behaviour; and we will contribute to their economic well-being by ensuring that they are not prevented by economic disadvantage from achieving their full potential.

#### **7. How do I know that my child is safe in school?**

At Grampound Road Primary School we have a variety of measures, policies and procedures in place to ensure that your child is safe. All staff are checked by the Disclosure and Barring Service (DBS checks previously known as CRB checks) and have tier 2 child protection training. There are also named members of staff who are trained to tier 3 in child protection. We have a safeguarding policy and have risk assessments in place for a wide variety of activities and situations that may arise. There is a Designated Safeguarding Lead and Deputy in place.

#### **8. How accessible is the school environment?**

The whole of the school environment at Grampound Road Primary School is accessible to everyone who attends school or who comes to visit us. We have good access to every classroom. We have a disabled changing facility and a medical room external storage for large pieces of equipment.

#### **9. How will school prepare and support my child through the transition from key stage to key stage and beyond?**

Your child will be highly supported by school throughout every transition process. We would meet with everyone involved in supporting a child's needs, talk to the relevant external professionals as well as involving members of staff from the next stage of schooling in these meetings. Where a child is transferring to a secondary school they would be able to undertake extra transition days to allow them to become more familiar with the environment.

#### **10. What specialist services and expertise are available at or accessed by your school?**

A list of specialist services used by the school and are accessible to us are on the Family Information Service website.

<http://www.cornwallfisdirectory.org.uk/kb5/cornwall/fsd/home.page>

#### **11. How will my child be included in activities outside the classroom including school trips?**

Everyone is included in everything at Grampound Road Primary School. Activities outside the classroom are a part of everyday life for us and we undertake a wide variety of school trips throughout the year. All children are encouraged to take part in after school clubs, and those children who need it are supported appropriately. The same applies when it comes to trips and camps and adaptations are made where necessary to ensure that every child is included whilst at the same time carefully ensuring that those adaptations do not affect the experiences of other children.

#### **12. How are the school's resources allocated and matched to children's special educational needs?**

Each year the school decides on an allocation of money for special educational needs (SEN). For all children identified with additional needs the school itself is expected to meet the first £6000 of any resources and support required by each individual child. For those children with a Statement of Special Educational Need or an Education, Health and Care Plan, spending above the £6000 may be claimed back from the local authority up to a limit set by the resources provided by the statement. In addition to this, these children also have access to free resources and support from external professionals such as Educational Psychologists for example. In-school resources and support are detailed in Personal Learning Plans (PLPs). These plans are individually tailored to each child and specify which resources will be used to support that child, how much support they will receive and whether any additional adult support will be used.

#### **13. What SEND training have the staff at school had or are having?**

The Special Educational Needs and Disability Co-ordinator (SENDCo) and Head of School have the accredited National Award for SEN Co-ordination, a year-long qualification which looks in depth at the differing types of special educational need, research and pedagogy into a wide variety of educational topics as well as how best to support children with SEN in school.

#### **14. What should I do if I feel that the Local Offer and the Information Report is not being delivered or is not meeting my child's needs?**

If you feel that the Local Offer/Information report or the School Offer is not being delivered or is not meeting your child's needs then we urge you to contact school in the first instance, speaking to either the SENDCo (Rachel Moseley) /Head of School (Claire Gabriele). Concerns may then be escalated if necessary to the Chair of the School Monitoring Council (Tracey George).

#### **15. How is your School Offer and Information report reviewed?**

Our School Offer and Information Report is reviewed on an annual basis in consultation with staff, parents and governors of the school.
