

Can you create your own number line on the washing line?
Try counting up in different jumps too!

Nature watch

How many different things can you spot in your garden or on your daily walk?
Make yourself comfortable and write down or draw pictures of the different creatures and plants you see.

Create your own weather station using a plastic bottle to collect the rain. Can you measure how much rain we have over the week?
Create your own windsock too!

Can you write your name and practice your numbers using different natural resources in the garden?

Trevose home learning activities

How many star jumps can you do in 1 minute?

Can you beat your score the next day?
Who can do the most in your family? ★

Complete one of Mr. Webb's P.E. challenges and take a picture to show you doing it!

I will update the class page with the link to the video.

Trevose does Bake off!

Can you bake a cake or some cupcakes and decorate them?
Send me a picture and I will share them on our class story for everyone to see!
