

**Tuesday 29<sup>th</sup> March 2017**

Dear Parents/ Carers,

The end of the Spring term is now drawing to a near, and what an exciting, chocolate filled term it has been. Thank you again for supplying chocolate treats last week for our end of topic outcome: everyone in Holywell class really enjoyed taking their products to Ladock school and sharing their exciting creations with the children there.

Our new topic is fast approaching and 'Oceans and Enterprise' is set to be an exciting end to the school year. Our big question, always subject to potential change, is 'Can Enterprise and Marine Ecology Coexist Harmoniously'. A real challenge, I'm sure you would agree - we have already begun to discuss the meaning of the question in class.

Tuesday 18<sup>th</sup> April is the first day of the Summer term, and this will be our immersive day. On this day, we have invited the Blue Reef Aquarium into school to share with us their 'Rockpool Roadshow'. They will bring in a variety of marine ecology to show us - we should even get to touch and hold some of the creatures! To support this event, we are asking for a donation of £2.50, to be paid through ParentPay. Access to this is now open.

Once again, thank you for your ongoing support and have a lovely Easter break!

Kind Regards,

Mr A Cornish
